of
THE FALCON CLUB OF AMERICA

Newsletter

Vol. 5, No. 4

July, 1992

DEDICATED TO PRESERVING
THE FALCON AUTOMOBILE

1960 - 1970 1/2

The Keystone Chapter of the Falcon Club of America was formed in 1988 to serve the geographical area consisting of Eastern Pennsylvania, Northern New Jersey and Southern New York.

DUES are \$5.00 annually. Memberships expire with the Macungie meet in August. The Keystone Chapter Newsletter will be published with information from and for its members in the months of January, April, June, July, August and October. All items to be published should be sent to the editor.

PRESIDENT'S MESSAGE:

We had a really nice day at Memorial Lake State Park. Bruce and Pam Wolfe did a great job with all the picnic arrangements. Thank you again to Anspach Auto for the courtesy of the picnic pavilion.

It was good to get to talk with all of you again. Arrangements for committees were made for our Regional in September.

July 18th is our meet at Bethlehem Ford. Our chapter will have a front row parking area. Be sure to pre-register for Macungie before July 11th. See you there.

Ed Snyder, President

VICE-PRESIDENT'S MESSAGE:

The third annual picnic at Grantville was very nice with plenty of good food, people and **Falcon** talk. Our next meet will be the **Falcon** dealer show at Bethlehem Ford on July 18th (see map and information in the newsletter). We have a chance to turn back the clocks and put our **Falcons** back on the dealer's lot in the front row. I hope to see you there.

Bill Wisser, Vice-President

SECRETARY'S REPORT:

The chapter meet at Grantville can be considered to be a success as 15 **Falcons** made the trip in beautiful weather (for once) and enjoyed a superb picnic put together by the capable hands of Bruce and Pam Wolfe. In addition to the treats served up by Chef Bruce, a wide selection of goodies brought by club members made for an excellent lunch.

Thanks Bruce and Pam for once again organizing a great day for our gang.

Don't forget about the July 18th meet at Bethlehem Ford. As the dealer is putting up a nice amount of funds for the chapter account, it's only fair we him them a nice turnout. Hope to see you there.

Marin Ennis, Secretary

TREASURER'S REPORT:

As of 6/27/92, the chapter has 2 new members, giving a total of 108 paid members.

Linda Wisser, Treasurer

50/50 RAFFLE WINNERS:

\$10 Barb Sellers
\$6 Pam Wolfe
\$6 Joan Kichline

EDITOR'S MESSAGE:

Hopefully this newsletter will reach you in time in case anyone has not yet sent in their pre-registration for Macungie. Post mark deadline is July 11th.

Planning for the Regional continues, and a schedule of events will be included in the August newsletter. Sending in your pre-registrations early is a great help in the planning process, and also saves you \$\$ since there is a discount for early pre-registration.

Our membership year expires with the Macungie meet. You can renew in person at our upcoming meets, or send a check for \$5 to Linda Wisser. Again, promptness is appreciated to keep our records current, and our membership list up-to-date. It is unpleasant for us to have to drop a couple of people each year for non-renewal. If you have changed your interests, and no longer have an interest in **Falcons**, a note of resignation would be appreciated.

See you at Bethlehem Ford.

Frank Servas, Editor

TECHNICAL TIPS:

When doing U-joints, hone out driveshaft yokes with a flap or sanding wheel. After you do this, the U-joint caps will easily slide in place.

When disassembling your **Falcon**, store the parts inside labeled boxes and make a list of everything inside. You'll save time on reassembly. Door handles on your list will say they are in box "A" with arm rests, etc.

Thanks to Steve Bortko for these tips.

Marin Ennis had a response from Larry Hackney concerning his request for information about 1964-65 gravel guards:

The gravel guard differences I have seen on the 64,65 **Falcons** does not seem to be related to body style, rather there is a difference in shape between vehicles with factory installed air and those without. The center of the guard is opened up in order that the condenser and dryer have room to be installed.

SERVICES RECOMMENDED:

SERVICES NOT RECOMMENDED:

Marin Ennis reported that recently two chapter members were victimized by the antics of Buzzard Products, Inc. of Arizona. This firm rechromes interior plastic. In one case, parts were sent at the beginning of this year and returned in poor condition. In the other case, dash bezels were sent in April, and not returned until June 22. In both cases, considerable long distance phone calls were rung up and intervention by a fellow FCA member was required to settle the score in person. It is suggested that this firm be avoided.

MEMBERSHIP YEAR:

The cutoff for the membership year has been established as the Macungie meet of each year. The year of expiration of your membership is printed above your name on the mailing label on the envelope.

REGIONAL CLASSES:

- #1 60-63 Sedan
- #2 64-65 Sedan
- #3 66 up Sedan
- #4 63 Convertible
- #5 64-65 Convertible
- #6 63 Hardtop
- #7 64-65 Hardtop
- #8 Utility
- #9 Modified
- #0 Diamond in the Rough

The committee reserves the right to combine or divide classes, if necessary. Trophies will be awarded in each class #1 to #9, as well as for Ladies choice, and best of show. Plaques will be awarded in class #0, for longest distance, and oldest Falcon,.

Parking will be available for trailers. Bring along any parts you have for sale. 50/50 drawings will be held. A shuttle bus will be available to go to the shopping center.

370 CARBURETOR FLOODING CAUSED BY NEEDLE COCKING

(All 2V And 4V Ford Carburetors
 1965 Units Built Before 6-15-65)

Carburetor flooding caused by needle cocking or hang-up occurs during the extreme needle travel when the fuel bowl is refilled after fuel leak down.

Carburetor flooding complaints can be corrected by installing the proper new floats having a revised float hanger tab which limits float travel and needle cocking.

The new float part requirements are:

- **Primary Float:**
 Mustang - Fairlane 289-4V C.I.D.
 Thunderbird 390-4V C.I.D.
 C1AZ-9550-A (Class "A")
 All 1965 2V Ford Carburetors
 C3AZ-9550-D (Class "A")
- **Secondary Float:**
 All 4V Carburetors except
 Mustang - Fairlane 289-4V C.I.D.
 Thunderbird 390-4V C.I.D.
 C1AZ-9550-B (Class "A")

Following carburetor float installation procedure as described in the shop manual, however, set the float level to the following **Wet Setting**:

- * 29/32" for all 2V carburetors
- * 29/32" for the primary side on all 4V, except Mustang
- * 15/16" for the primary side on all 4V Mustangs
- 1" for the secondary side on all 4V - (New Specification)
- * Minimum dimension of current specification.
