

LB Smith 17th Annual All Ford Show

The weather was perfect for the car show. Another record was broken with 140 cars at the show. The reason I say cars and not Fords is due to 1 Corvette at the show. He didn't stay very long. I guess he figured out it was an "ALL FORD SHOW".

Glenn & Sandy Hoff

Jerry & Linda Kratz

I heard someone ask him if it had a FORD engine. Twenty of the Fords at the show were Falcons. Most were KCFCA and Mason Dixon members. Andy Brown and I were very busy directing the cars into their places so I didn't get a

picture of all 20 Falcons. Also, I didn't make a list of the KCFCA members that attended. Many of us noticed one thing, there were 3 Falcon Sedan Deliverys at the show. That's 15% of the Falcons, WOW.

One special thing for me was my 16 year old Grandson Dustin attending his first show with his 1966 Futura Sports coupe. It was painted 2017 Ford lightning Blue the previous Sunday and PA inspection, front end

alignment and transmission leak fixed on Thursday. It still needs some emblems installed and a few minor additions to make it complete. We are working on installing 3 point seat belts this week. You will see more details about Dustin's Futura Sports Coupe in a future newsletter. Dustin did his part by handing out the 17th Annual LB Smith dash plaques. Bruce Wolfe

This "WILD 1963 GASSER" scared everyone when he started it up at the end of the day.
