## President's Message

Greetings to all,

Well here it is 2017 and I hope that everyone is doing well. I am writing this message with an upcoming snow storm in the future. It is hard to believe that the temperature was in the 70's not long ago. What strange weather! Springtime weather will soon be here. It will be time to get our Falcons out of hibernation. Have you finished your wintertime Falcon projects? I still have to put the finishing touches on some upgrades of mine. We have some fun events planned for this year, but we are looking for some new shows. If you have any ideas let us know early so that we can get them in our schedule. Don't forget to help spread the word of the Falcon when you are out. Tell people about us. This will help keep our club going strong. I look forward to seeing everyone come out this year. If you your Falcon can't make it we still enjoy having our members come out. I wish you all the best in 2017!

Jeff

## New KCFCA Vice President

Jerry Kratz has volunteered to be the  
new KCFCA Vice President.

Thanks Jerry for "Stepping Up" for our chapter.

## FUTURE NEWSLETTERS:

We need your Falcon story. Send some pictures and your Falcon story to the KCFCA editor. Use email address [afutura@verizon.net](mailto:afutura@verizon.net) or send pictures (or a disc) by US mail.

## Using One of Your Wife's Tools From Her Sewing Drawer

So you didn't think your wife, your Mom or your Grandma had a tool you could use to restore your Falcon. Well check this out. I found the flexibility of a seamstress tape measure works great to measure brake lines. It bends easily around the brake line shapes that go in many different directions. And it also works nice when measuring odd shaped sheet metal to repair rust holes in your floors.

OKAY..... Now wipe all the grease off the tape measure and slip it back into the drawer.
