# THE FALCON KEY

Keystone Chapter

*FordFalcon.org*

Vol. 32 No. 2 Whole # 158

## 1963 Ford Falcon Futura 2 door

Straight 6 cylinder 170 - Rose Beige - Black interior - Manufactured in NJ - October 1962.

Non touched original. Only upgrades are the American Racing Mag wheels & BF Goodrich TA tires.

Herbie Hale Jr & Kathleen Lisa Hale are the proud second owners.

The car had just under 52,000 original miles and was used only for weekend trips and church.

The original owner had it since she was 16 in 1963. This car is a survivor, a true time machine.

The Hale's intend to leave the car in its current original and non-restored state, to only be the stewards and hope to pass it along to someone who plans to do the same.

*The car is always for sale at the right number.*

Keystone member [Herb Hale and his 63 Futura](#) was on PBS MotorWeek starting June 11, S40 E40. [PBS's MotorWeek](#). Episode 40, season 40 for you streamers.

Serving the Geographical Areas of Eastern Pennsylvania , Northern New Jersey, & Southern New York

Dedicated to Preserving the Ford Falcon Automobile 1960-1970 1/2

#### **Northeast Regional Director:**

John Howard  
falconwagon62@yahoo.com

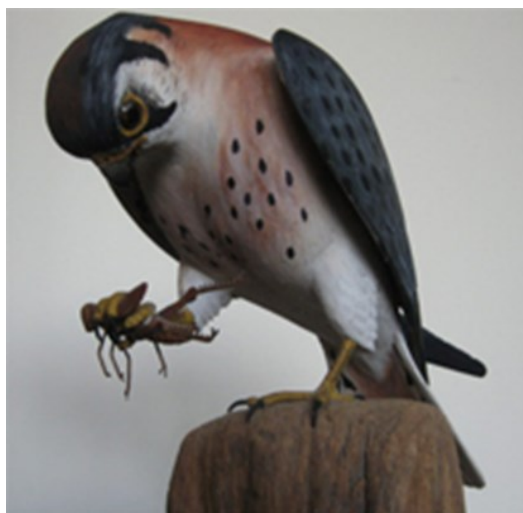

Hello Keystone Ford Falconers,

As you know, things are starting to open up. Car shows are no exception. June alone, we saw five shows listed on our website Events tab. Thank you to those that replied to my request for shows you have attended this year. As the season progresses, continue to update me as you get out there. The website has been enhanced to include an attendance section on the page for the Event, your personal Aviary page as well as the Keystone Attendance page found under the Events tab. Check it out.

Yes, Keystone will host a Regional in 2022! Our numbers have dwindled and aged to the point we could not muster enough volunteers to venture out to a new location. Bethel has been good to us. We should be able to replicate previous successes.

Tip your hat to all Falcons and classic cars you see on the road.

Jim

# CHAPTER BUSINESS

Dues are \$12.00

annually

Memberships expire

August 31st

Send dues to the

Keystone Treasurer

Make checks payable

to KCFCA

All Keystone Chapter

Members must hold

Membership in the

Falcon

Club of America

**THE MEETS LISTED ABOVE ARE A COPY OF THE LISTING ON  
OUR KCFCA WEBSITE. GO TO THE WEBSITE FOR MORE  
DETAILED INFORMATION ON THESE MEETS.**

## TECH TIP FROM JERRY KRATZ ON V8 CLUTCH EQUALIZER OR Z-BAR

Ford made a different clutch equalizer or Z-bar for each year that the V8 was offered from 1963 thru 1965. In the pictures the 63 is the top, 64 in the middle, and 65 is the bottom. The 63 and 64 are similar with the upper arm having a little different bend. When you compare them, they will generally interchange with each other. This bar works only on 260 or early 289 with a 5 bolt bellhousing block.

On the 1965 bar the upper arm is similar to the 64 but the overall width of the tube is shorter. The reason for this is because this was used with a 6 bolt bellhousing block. This is the bar you would use if you are doing a V8 conversion and using a 6 bolt block which would be a later 289, 302, or 351W. The block is wider compared to an early 5 bolt block 289 or 260 which were all 5 bolt blocks. If you have a later 302 block that does not have the provision for the ball mount for the Z-bar there is an adapter bracket that bolts on using the bellhousing bolts so the Z-bar can be used. **NOTE:** The '65 tube is **5 5/16"** long and the '63/'64 tube is **6 1/8"** long. The frame mount pivot plate and the engine mount pivot are the same. Also note the pin for the clutch linkage protrudes to the right (towards the engine) on the '65.

**CHECK OUT THE PICTURES ON THE NEXT PAGE**

# TECH TIP FROM JERRY KRATZ ON V8 CLUTCH EQUALIZER OR Z-BAR

**NOTE: THE CLUTCH LINKAGE PIN IS ON THE LEFT ON '63/'64 AND IS ON THE RIGHT (TOWARDS ENGINE) ON THE '65.**
